OVERVIEW

To streamline safety training and reduce repetitive training, MOM Workplace Safety and Health related courses have transited to the WSQ System. These mandated safety courses will equip the workers and supervisors with the essential competencies to work safely in the construction and other related industries.

COMPETENCY UNIT

Supervise Workplace Safety and Health for Formwork Construction

COMPETENCY CODE

WPH-GMS-3308-1.1

OBJECTIVE

By the end of the course, learners should be competently trained with the knowledge and application skills in supervising formwork activities which include the construction, erection, alteration or dismantling and inspection of formwork structures at any worksite.

THEORY & PRACTICAL

This Competency Unit (CU) covers the Performance Statements (PS) as listed below:

- PS1. Apply the WSH Act and its subsidiary legislations and relevant Codes of Practice to the construction, erection, alteration or dismantling of any formwork structure in a worksite
- PS2. List the roles and responsibilities of a formwork supervisor
- PS3. Assist in carrying out risk assessment for formwork activities
- PS4. Apply the fundamentals of formwork structure construction
- PS5. Ensure formwork structure construction is in accordance with approved design
- PS6. Inspect formwork and falsework structure before, during and after concreting
- PS7. Respond to failure in formwork structure, fire and emergencies

^ENTRY REQUIREMENTS / *ASSUMED SKILLS AND KNOWLEDGE
